PROSPECTUS

OF

Santa Clara College,

CAL.

This Institution is under the superintendence of the Fathers of the Society of Jesus, and it is open to all, who choose to avail themselves of its advantages. It is situated in the beautiful valley of Santa Clara, so celebrated for the salubrity of its climate, and is quite close to the Southern Pacific Railroad.

The College was founded in 1851. On the 28th of April 1855 it was incorporated, and empowered to confer degrees and academical honors, and to exercise all the rights and privileges common to any other literary Institution in the United States.

The Institution has a full staff of professors, and a great many other advantages for the mental, physical and moral training of the students. It possesses a complete philosophical apparatus, to which new and important additions are being made every year to keep pace with the progress of science.

The chemical laboratory is provided with a full assortment of chemicals, furnaces and all that is necessary to enable the students to acquire a practical knowledge of chemical analysis and assaying. Practical lessons are also given on the electric telegraph, and on photography.

The museum of natural history comprises a large collection of mineralogical and conchological specimens from different parts of the world, besides several natural curiosities.

The College library contains more than twelve thousand volumes.

For the purpose of improving themselves in public speaking the more advanced students have formed literary societies, furnished with select libraries to which they may have access in their leisure hours.

To excite a laudable emulation, the places obtained in the several classes by

the students are monthly announced, and printed certificates given to those who have distinguished themselves by improvement, diligence and good conduct.

At the end of the year, gold and silver medals and valuable premiums are distributed to the most worthy.

Besides an extensive play-ground and gymnasiums, the students have a safe and commodious artificial swimming pond, supplied by an artesian well in the centre. In winter they have warm baths in the College.

For the sick, there is a neatly furnished infirmary, with an apothecary shop attached; and, besides the daily visit of an able physician, an experienced infirmarian is constantly in attendance.

To cultivate the heart, no less than to develop the intellectual and physical faculties of their pupils, is a duty kept constantly and sacredly in view by the Fathers.

In order the better to attain this great object, experience having proved the necessity of separating the younger from the older students, their dormitories play-grounds, study-halls, etc., are entirely distinct.

System of Instruction.

The scholastic year consists of but one session. It commences at the beginning of August; and it ends at the beginning of June, with a public exhibition—either literary or scientific—the conferring of degrees and the distribution of premiums.

There is also a public examination of all the classes before Christmas holidays and before the close of the session.

The plan of instruction embraces two distinct courses, the Classic and Scientific.

The Classic includes the full course of studies as laid down below.

The Scientific comprises the same with the exception of Latin and Greek.

There is, besides, a Preparatory Department, in which Spelling, Reading, Writing and the Elements of Arithmetic, History and Geography are taught.

A. B.

The degree of Bachelor of Arts is conferred on those only, who on completing the studies of Logic and Metaphysics, Geometry, Trigonometry, Conic Sections and Surveying, Elementary Chemistry, and the treatises of the 1st year of Natural Philosophy, are found, after due examination, sufficiently qualified. But to become a candidate for A.B., a satisfactory examination is previously required in English Rhetoric and in the Classics.

A. M.

The degree of Master of Arts is conferred on those who, having received the degree of A.B., shall have passed a satisfactory examination in Moral Philosophy, Analytical Geometry and Calculus, Organic Chemistry, and the 2d year of Natural Philosophy.

S. B.

For the degree of Bachelor of Science, the same conditions are required as for the degree of A.B., with the exception of Latin and Greek.

General Regulations.

When a student has been admitted into the College, he is examined and placed in the class for which he may be adapted. He then passes on regularly through either the classic or scientific course.

At any time during the year, and particulary at the first minor examination if any one be found capable of passing to a higher class, he will be promoted

No one will be admitted unless he has a good moral character.

Any one coming from a different Institution will be required to produce a satisfactory recommendation from the Principal of such Institution.

No one can become a pupil of the Institution for a shorter period than half a session

As the members of the College profess the Catholic Religion, the exercises of religious worship are catholic; but members of any religious denomination are received, provided they be willing, for the sake of order and uniformity, to be present, with propriety, at the divine worship in the Institution.

No student will be permitted to leave the College on visits of any length, except at Christmas holidays, from the twenty-third of December to the third of January, if such be the wish of his parents or guardians.

The students, however, whose parents live in the vicinity of the College, are allowed to visit them once a month; but they must return before dark

Any student leaving the College for summer vacations, or Christmas holidays and failing to be present on the day appointed for re-opening the classes, will, by the fact of absence, be excluded from the College until the following session; except in cases where the parent or guardian of the dilatory student shall show cause of absence which the Faculty of the College shall consider wholly sufficient.

No one will be allowed to leave the precincts of the College except accompanied by a tutor or prefect.

All Thursdays of the academic year are vacation days, but should an extraordinary holiday happen on Tuesday, Wednesday, or Friday, classes may be continued on Thursday, as usual.

The students will not be permitted to have any books or publications except such as have been approved by the President.

All letters, not known to be from parents, are subject to the inspection of the President.

Tobacco is positively prohibited.

To form clubs or societies, to hold meetings of any kind without the consent of the President; the habitual use of profane language; any gross immorality committed either within or without the precincts of the Institution; the possession or distribution of immoral publications or pictures; intoxication; absence from the College at night without the permission of the President; formal disobedience to any of the officers, expose the offenders to a dismissal.

Violations of the established discipline of the College are suppressed in a mild but effectual manner. Should any student prove refractoy or immoral, in spite of all efforts to correct him, he will be sent back to his parents or guardian.

Twice a year bulletins are sent to parents or guardians, to inform them of the health, conduct and proficiency of their sons or wards.

Special Directions.

On entering the Institution, the students must be provided with two pairs of sheets, three pillow cases, a white counterpane eight feet by seven, three suits of clothes adapted to the season, a sufficient number of shirts, drawers, handkerchiefs, socks, boots and other articles of wardrobe; napkins, towels, combs, brushes and other indispensable articles.

It is very desirable that the best of the three suits above mentioned should be of dark blue color to be used as *College Uniform* in and out of the College and also as *Cadets Uniform.*

All the clothing of the students will be under the charge of a wardrobe keeper, whose duty will be to keep the clothes in good order. The mending of clothes and boots will be done in the Institution at reasonable charges.

As the students are not allowed to have money in their own custody, the pocket-money must be deposited with the Treasurer. It is the wish of the Faculty, that not more than twenty-five cents per week be allowed to any student.

For clothing, books, pocket-money, and the like, no advance is made by the Institution. To meet such incidental expenses, a sufficient sum must be deposited with the Treasurer.

The students whose parents live not in the County of San Francisco, or of Santa Clara, must have a responsible agent either in San Francisco, San José or Santa Clara.

Whenever parents or guardians wish to have their sons or wards home, they are requested to inform the President of the College by a letter directed to him and in case of withdrawal from College they should settle accounts and forward money to defray traveling expenses.

N. B. Parents or guardians, intending to place their sons or wards in this Institution, are recommended to send them at the commencement of the session.

The President and Faculty of Santa Clara College express their sincere gratitude to the friends of the Institution, by whom they are continually favored with a variety of valuable and interesting specimens of gold, silver and copper ores, fossils, shells, books, &c.

The next Session will open on the 5th of August, 1872.
